

COVID-19 and Flu Season Safety

NIFVS is committed to ensuring the health, safety and wellbeing of all attendees at this event. COVID-19 continues to have an impact on the Victorian community, and as we enter the cooler months we know transmission of respiratory illnesses can become a higher concern, particularly at large indoor events. We recognise that people may have different experiences, needs and comfort levels when attending in-person events.

In acknowledgement of this, NIFVS will have masks available at the event for attendees who choose to use them. Masks can be requested from NIFVS staff or at the registration desk. The venue will be appropriately ventilated, and hand sanitiser will also be available.

To help support the wellbeing of everyone attending, we ask that you please do not attend if you are feeling unwell or experiencing symptoms consistent with COVID-19. If you have been recently exposed to someone with COVID-19, please consider taking a Rapid Antigen Test prior to attending.

Where possible, attendees are asked to be mindful of personal space and close contact with others.

The meeting will take place at the Aborigines Advancement League, where we are fortunate to have access to outdoor spaces. Attendees are welcome to make use of these outdoor areas during breaks. Lunch will be provided in individual lunch boxes on the day.

If you require support on the day, or have questions about COVID safety measures, please speak with a member of the NIFVS staff.

We appreciate your cooperation in making this a safe, inclusive and welcoming event for everyone.
